

How to install?

1- install the APK file to your android app from GitHub using this link:

<https://github.com/ohud9/MyResume/blob/master/OhudAlessaResume.apk>

2- install the APK Editor app founded in google play store

3- open the APK Editor and choose : " Select an APK File "

4- choose the APK file you have installed

5- select the Common Edit choice

6- change the install location to : Internal only

7- click save button to save the changes.

8- now you can install the app and see my resume :)
